Glenn Orlin  
Council Office Building  
100 Maryland Avenue  
Rockville, MD 20852

Dear Mr. Orlin:

I am writing on behalf of the residents and property owners on Fawsett Road to ask that you do your utmost to see that the line item in the CIP Budget for DBU road construction remains at a high enough priority to be built as soon as possible. As you know, the residents of Fawsett Road have been trying since the 1960s to have their road built to county standards. We are pleased to be the first (and so far the only road) to petition the county for construction under the Dedicated but Unmaintained Roads Policy. We look forward to being a successful demonstration project.

The projected project cost for this project is \$557,000. This is considerably less than the line item shown in the CIP Budget which I recollect to be some \$990,000. We will continue to work with DOT engineers to insure that the price remains as low as possible.

Sincerely,

Peggy Dennis, President  
Montgomery County Civic Federation

Cc: Council President Roger Berliner
