

Non-Vehicular Use Paths in PEPCO Rights-of-Way - Resolution of the MCCF
Approved by full delegate assembly on June 9, 2014

Whereas the connectivity of safe routes for bicyclists and pedestrians is increasingly important as non-vehicular means of transportation are adopted; and,

Whereas gas and electric distribution lines cross the county in relatively straight lines with no traffic intruding; and

Whereas PEPCO and the Exelon Corporation are seeking approval for their merger;

Therefore, be it resolved that the Montgomery County Civic Federation urges the County Council and the County Executive to communicate to the Maryland Public Service Commission that the establishment of a shared use path solely for non-vehicular use along PEPCO's transmission lines in Montgomery County is a desirable objective and one which should be considered as a public benefit when debating approval of the proposed merger.
