Montgomery County Civic Federation Resolution

Position on Report of County Executive's Transit Task Force

The Montgomery County Civic Federation urges that a public hearing be held and testimony and all public comments be published as an Appendix to the Transit Task Force Report, that other funding mechanisms than just the Special Taxing District model receive serious consideration by the Executive Branch, and that community residents be engaged in dialogue regarding alignment of proposed routes through their area, prior to any RTV projects being considered for inclusion in the CIP (Capital Improvements Program).
